DCA (Dollar-Cost Averaging)

“A principle of investing which entails the use of equal amounts for investment at regular intervals in the hope of reducing average share cost by acquiring more shares in periods of lower securities prices and fewer shares in periods of higher securities prices.” (IFIC)

To facilitate this, money is contributed to one fund and then transferred or allocated to other funds of your choice.

Each transaction is subject to a \$100 minimum.

Payment Process

Your DCA will cease when your “switching out” fund has been depleted.
